ADVANCED GAMING HEADSET

large sized headband  
for best comfort

retractable microphone

multifunction inline controller  
volume / track / mic / subwoofer

## OVERVIEW

When you're in the real game every second is precious and every sound counts. Ozone Oxid is the ultimate solution in gaming headsets for advanced users. The closed earphones let you concentrate on the game and the included mic follows your intuition when you need to get in full cooperation with your team mates.

In addition, Ozone Oxid includes an inline controller that allows turning on/off the mic and subwoofer, as well as other functions for general use.

Ozone Oxid has been tested to fit your head in comfort during hard gaming sessions. The adjustable headband is made of soft materials for comfort and its perforated coverage makes it right for long time use - no heat, no slip, just gaming.
