

ozone SmOG

PROFESSIONAL GAMING MOUSE

swappable rightside grip

macro support / adjustable DPI
programmable buttons

customizable weight system

OVERVIEW

The Ozone Smog gaming mouse is ready to give you the best gaming experience ever. Ergonomically designed, the rightside hand support can be changed to best suit your way of holding it. There's absolutely no way of explaining the experience of grabbing this mouse. It's like it's designed for your own hand! This is the ultimate gaming mouse for gaming professionals, designers and enthusiasts. The macro support allows 5 different modes, each one with high customization level.

The adjust lift function adapts the laser sensor to the mousepad you're using, so you can take the best out of your Smog mouse. In fact, this laser sensor is so precise, and has such a wide sensibility (up to 5040 dpi) that you'll never play the same. Tilt scroll allows scrolling in every direction making your Smog not only excellent for gaming but also extremely complete in all other tasks you might be up to. Weight customization, programmable buttons, well... it has it all.
