BLAST OCELOTE WORLD

USER MANUAL

it's all about evolution

FEATURES

1. Foldable USB **virtual 7.1** gaming headset, **compatible with PC & PS4**.
2. Quick mic on/off on mic boom with LED indicator.
3. Button switch for volume +/- and speaker on/off on **inline controller**.
4. LED lighting FX on earcups with exclusive **oceloteWorld** design.

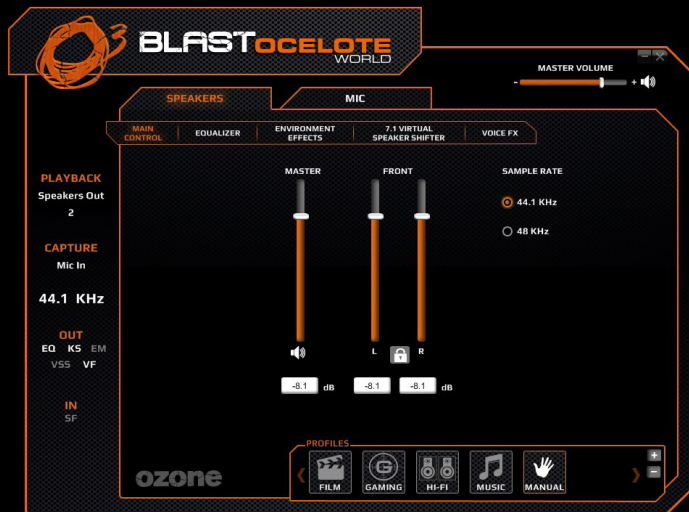

BOX CONTENT

1. Headphone with mic + inline controller with a USB connector.

INSTALLATION INSTRUCTIONS

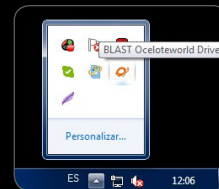

1. Before installation, please be sure to save other open applications and then exit, to avoid data loss after installation.
2. Plug the USB cable of the headset into a free USB port on your PC. Download the driver from **ozonegaming.com** (see page 2 for instructions). Double-click "Setup.exe" to start installation. Follow the steps in the installation program.
3. Reboot the system in the last step in order to complete the installation.

BLAST OCELOTE DRIVER

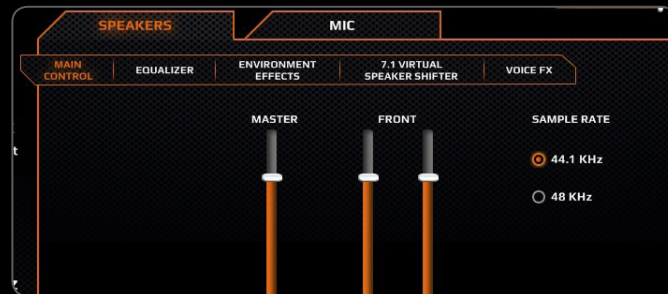

CONFIGURATION

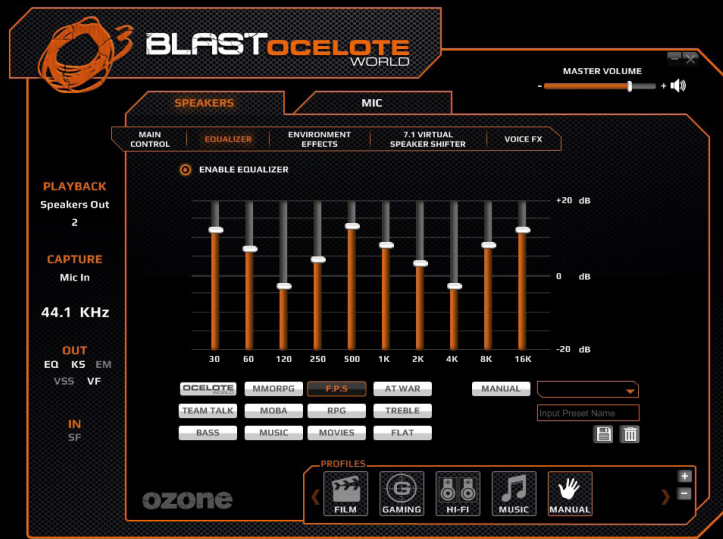

In the tray, click OZONE logo to pop-up the BLAST OCELOTE 7.1 Surround Panel

Customize your own setting via adjusting the functions within control panel:
1. **MAIN CONTROL:** You can adjust the Main Volume and sample Rate of both speakers and microphone.

2. **EQUALIZER**: Enable the Equalizer and set it up to your personal preference or use one of the predefined settings for the different game styles.

You can also save you own EQ settings and you will have them available under the "**MANUAL**" drop down menu.

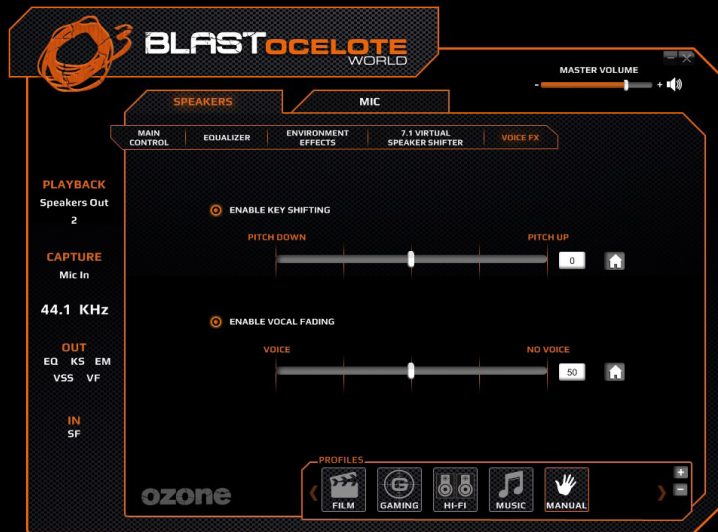

3. **ENVIRONMENT EFFECTS:** Enable Environment Effects. Here you can set a Room size or use any of the environment effects from the drop down menu.

4. **7.1 VIRTUAL SPEAKER SHIFTER:** Move or rotate the speaker to fit your needs. You can also set the volume (dB) of each speaker separately.

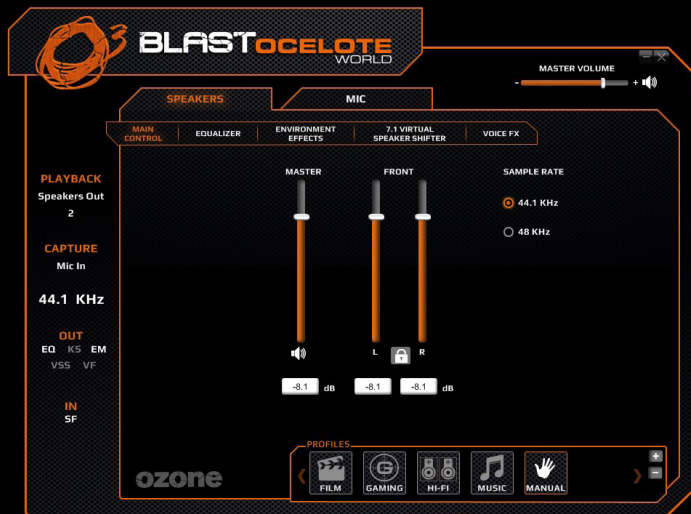

5. **VOICE FX:** You can enable Key Shifting to change the pitch of the voice on the speakers and also enable vocal fading.

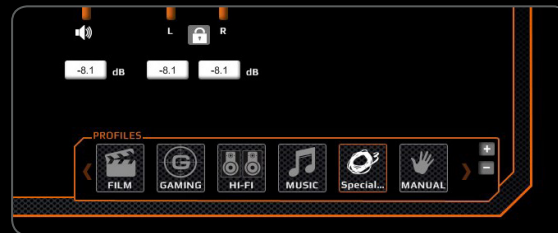

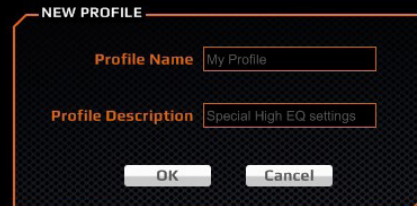

Voice FX is also available for the Mic where you can enable the microphone echo or set a Magic Voice effect (monster, cartoon, male or female).

6. **PROFILES:** You can use an existing predefined profile to change your settings.

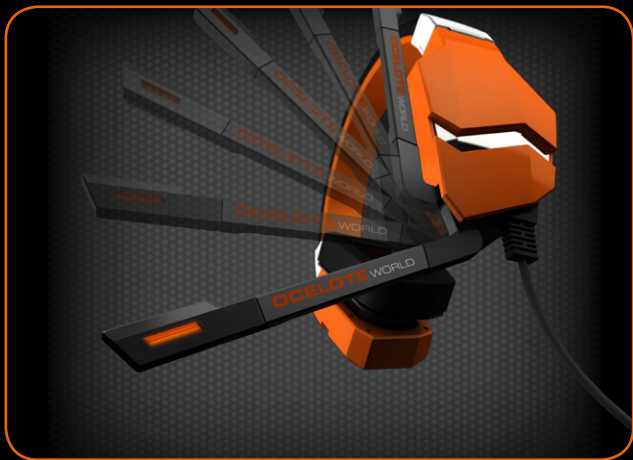

Or you can also create your own profile and add it to the profiles list in order to use it whenever you need it.

MIC-MUTE FUNCTION

Auto-microphone on/off setting: Get your mic out of the way quickly and easily when you don't need it in the midst of battle. When the mic position is up it turns OFF automatically, when you move it down it automatically turns ON again.

INLINE CONTROLLER

Adjust the speaker volume (-/+) and reach speaker mute function easily via inline controller.

* Orange LED working mode on controller; static when in stand by mode and flashing when playing.
